

P.I.A.A. District 6

Competitive Spirit Survey

The P.I.A.A. is moving forward with plans to introduce Competitive Sprit as a sanctioned sport to expand competitive opportunities for girls. In the effort to effectively initiate a District 6 competition and integrate it into the state plans we are collecting information regarding existing levels of interest and practice.

While many details regarding season, length of season, District qualifications etc. remain to be worked out, we do know that there will be three divisions established based upon the size of the squad. Small Varsity Division will consist of squads with 15 or fewer members, Medium Varsity Division will consist of squads with 16-20 members, and Large Varsity Division will be for those squads with 21 or more members.

Please answer the following questions and return the survey to Dr. Dave Crumrine at dcrumrine@scsd.k12.pa.us by the end of June. Thanks for your help!

1. Does your school sponsor a Competitive Cheerleading Squad? What size squad?
2. Once the PIAA organizes its' own approach to the sport (rules, dates, nature of competition, etc.) would your school be interested in participating in District 6 qualifiers for possible State competitions? If details were worked out for 2012/13 would you be interested in participating that quickly?
3. What competitions is your squad planning on participating in during the upcoming year?
4. What suggestions would you offer the District 6 Committee as we consider how to best select our allotted 6 qualifiers for the state competition?
